EXPERIENCE

Aviture Inc., Omaha, NE — *UI/UX Designer*
DECEMBER 2021 – MAY 2025

Designed UX solutions for military mission planning software, improving workflows and first-time user onboarding for routine and emergency operations.

Contributed to a scalable, cross-platform design system with detailed documentation for consistent implementation.

Led client presentations and stakeholder reviews, using prototypes and UX narratives to align vision and gather feedback.

Omaha Public Power District, Omaha, NE — *UI/UX Designer*
APRIL 2019 – OCTOBER 2021

Established and scaled the organization's first UX design practice, defining standards and processes to drive user-centered design.

Redesigned enterprise intranet tools with modern IA and UX best practices, improving usability and team collaboration.

Acted as a cross-functional UX consultant, aligning design strategy with business goals across products and teams.

InEight (Kiewit), Omaha, NE —*UI/UX Designer*
SEPTEMBER 2018 - JANUARY 2019

Created mobile applications to support compliance, safety, and QA workflows for field teams.

Created high-fidelity prototypes for construction tools, guided by user testing and task analysis.

Supported research efforts to improve interaction patterns and usability for on-site mobile and tablet use.

Proxibid, Inc., Omaha, NE —*UI/UX Designer*
OCTOBER 2017 - MAY 2018

Built interactive prototypes for an auction platform to support usability testing and iterative design.

Designed and implemented a scalable UI design system for consistent visuals and reusable components.

Led design reviews and presentations, translating research into actionable insights for stakeholders.

SUMMARY

Creative and adaptable UI/UX Designer with a strong record of delivering user-centered solutions across industries.
